Working on a java compiler and writing a simple function:

```java
public class Main
{
    public static void main(String[] args) {
        System.out.println("Hello World");

        int[] array = {1,2,3,4,5,6};

        for(int i=0;i<array.length;i++)
        {
            System.out.print(array[i]+" ");
        }
    }
}
```

Working on terminal:

```
Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.

mysql>
```
